Fax: +31 (0)33-4557269  
www.alcochem.nl

Declare, under our responsibility, that the (imported) products:

**Philips 15 watt / 18 watt / 36 watt UV-A lamps, which are brought into the market under the product name “Long-life UV-A lamps”**

comply with the following European standards:

- \* EN 60335-1 Safety of household and similar electrical equipment. Part 1: General requirements.
- \* EN 60335-2/59 Safety of household and similar electrical appliances. Part 2: Particular requirements for insect killers.
- \* IEC 1195 Safety specification of fluorescent lamps.
- \* Dir 73/23/EEC & Dir 93/68/EC Low voltage directive; (LVD)

All according to the definition of the Low Voltage Directive 73/23/EEC, the RoHS Directive 2002/95/WE and 2006/95/WE and the Directive 2004/108/EEC

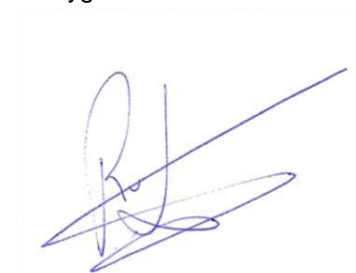

In addition to these norms we declare that:

- 1) The Philips long-life lamps have a higher UV-A output after 17.500 hours than common UV-A lamps offer after 8760 hours
- 2) The lamps will contain less than 5mg of mercury
- 3) The glass is 100% lead free, no butyl chemicals is used to insert the fluorescent powder
- 4) The shatterproof coating used optionally on the lamps is 95% transparent on UV-A wavelengths.

Place: Waalre, The Netherlands  
Date : Dec 2009

Authorized Person:  
Mr. R van Lierop, director Alcochem Hygiene
