

RoHS Statement of Compliance

Adopted by the European Union on 1st July 2006, the EU directive 2002/95/EC, better known as the "*Restrictions on the use of Hazardous Substances*" (RoHS), bans the sale of new electrical and electronic equipment containing more than agreed levels of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyl and polybrominated diphenyl.

Through working closely with our trusted manufacturing partners, P+L Systems Ltd. have ensured beyond all reasonable doubt that every product sold under our market leading Insect-O-Cutor, Network and P+L Systems brands are compliant to the RoHS Directive.
